De Gruyter is a scholar's press, where emphasis is placed on quality research and on the contributors whose work we represent. These leading academic publishers and De Gruyter share a mission: to promote the publishing of premium, scholarly monographs in an increasingly difficult financial landscape, and to support scholars in reaching an audience for their research.

This international partnership promotes the distribution of high-level, scholarly literature in more than 20 key subject areas. Each partner's unique content has been integrated into De Gruyter's online platform and is accessible from anywhere in the world. Nearly 30,000 more eBooks as well as selected eJournals are now available, covering frontlist, backlist, and previously hard-to-find archive titles.
