Chemistry International is the newsmagazine of the International Union of Pure and Applied Chemistry (IUPAC). News about IUPAC, its chemists, its publications, its recommendations, its conferences and the work of its commissions and committees is published quarterly in CI.

IUPAC Member Access is available through the IUPAC web site at www.iupac.org, where members can find links that will authenticate access to current CI content.

CI has a readership of about 9000, which includes IUPAC members and affiliates, and individual subscribers. While 3000 copies are distributed in the United States, the rest go around the world, including all the countries that are adhering organizations of IUPAC - Brazil, Canada, Belgium, Norway, South Africa, India, and New Zealand, just to cite a few of the more than 60 countries that receive CI.

IUPAC and De Gruyter

In addition to Chemistry International, De Gruyter is proud to partner with IUPAC in the publication of the society's flagship monthly journal, Pure and Applied Chemistry and the new Open Access journal Chemistry Teacher International, as well as the IUPAC Standards Database. You can find links to all of the IUPAC Content available on De Gruyter Online at the IUPAC & De Gruyter Home Page, as well as special content, such as themed Virtual Issues of content drawn from across journals and volume years.
