Objective

Epidemiologic Methods (EM) seeks contributions comparable to those of the leading epidemiologic journals, but also invites papers that may be more technical or of greater length than what has traditionally been allowed by journals in epidemiology. Applications and examples with real data to illustrate methodology are strongly encouraged but not required.

Topics

- genetic epidemiology
- infectious disease
- pharmaco-epidemiology
- ecologic studies
- environmental exposures
- screening
- surveillance
- social networks
- comparative effectiveness
- statistical modeling
- causal inference
- measurement error
- study design
- meta-analysis

Article formats

Editorials, Articles, Comments, Rejoinders

> Information on submission process

Your benefits:

- Novel methodology
- Useful forum for in-depth articles on epidemiologic methods

SUBSCRIPTION RATES FOR 2018

Online:
Institutional
€ [D] 283.00 / US$ 381.00 / GBP 232.00*
1 Issue per year
Online ISSN: 2161-962X

Language of Publication: English

Subjects:
Clinical Medicine • Public Health
Clinical Medicine • Hygiene and Environmental Medicine
Clinical Medicine • Internal Medicine • Internal Medicine, other
Probability and Statistics

Of interest to: researchers and professionals in the field of epidemiology
