Objective

*Hormone Molecular Biology and Clinical Investigation (HMBCI)* is dedicated to the provision of basic data on molecular aspects of hormones in physiology and pathophysiology. The journal covers the treatment of major diseases, such as endocrine cancers (breast, prostate, endometrium, ovary), renal and lymphoid carcinoma, hypertension, cardiovascular systems, osteoporosis, hormone deficiency in menopause and andropause, obesity, diabetes, brain and related diseases, metabolic syndrome, sexual dysfunction, fetal and pregnancy diseases, as well as the treatment of dysfunctions and deficiencies. *HMBCI* covers new data on the different steps and factors involved in the mechanism of hormone action. It will equally examine the relation of hormones with the immune system and its environment, as well as new developments in hormone measurements.

*HMBCI* is a blind peer reviewed journal and publishes in English: Original articles, Reviews, Mini Reviews, Short Communications, Case Reports, Letters to the Editor and Opinion papers. Ahead-of-print publishing ensures faster processing of fully proof-read, DOI-citable articles.

Topics

- The superfamily of receptors of the different hormones (steroids, polypeptides and related hormones), and co-regulators (activators and repressors);
- Hormones related to the function of growth factors, oncogenes, and cytokines, in normal and neoplastic tissues;
- Enzymes and anti-enzymes involved in the formation and disposition of various hormones in connection with the diseases stated above;
- Hormone signaling and response to hormone therapy;
- Mechanism of cancer cell proliferation under endocrine therapy;
- Resistance to hormone therapy and its mechanism;
- Hormones and the brain and other neuroendocrine organs;
- Hormone replacement therapy;
- Pre-clinical studies to test new molecules in isolated models and in human trials;

**Subscription Rates for 2018**

*Online:*
- Institutional: € [D] 534.00 / US$ 801.00 / GBP 438.00*
- Subscription: € [D] 99.00 / US$ 149.00 / GBP 80.00*
  4 issues per year

*Online ISSN: 1868-1891*

**Language of Publication:** English

**Subjects:**
- Clinical Medicine, Clinical Medicine, other Molecular Biology

**Of Interest to:**
Researchers and practitioners interested in the topic of *HMBCI*

**CiteScore 2016:** 2.15

**SCImago Journal Rank (SJR) 2015:** 0.432

**Source Normalized Impact per Paper (SNIP) 2015:** 0.334

Hormones and the immune system;
Hormones and the environment;
Initiation and evolution of diseases related to the mechanism of action of hormones;
Therapeutic effect of hormones with regard to the method of administration.

Article formats
Original articles, Reviews, Mini Reviews, Short Communications, Case Reports, Letters to the Editor and Opinion papers

Information on Submission Process
Your benefits
Most recent research on urgent health issues related to hormones
Thorough selection of top articles within particular fields
Internationally recognized editorial board boosting the prestige of articles
Quick access to issues thanks to ahead of print publishing

Editor-in-Chief
Gérard S. Chetrite
Faculty of Medicine
Paris-Sud University
Paris/France
E-mail: gerard.chetrite@u-psud.fr

Associate Editors
Bruno Feve, Centre de Recherche Saint-Antoine, Faculté de Médecine Pierre et Marie Curie, Paris/France
Michelle T. Foster, Department of Food Science and Human Nutrition, Colorado State University, Fort Collins/USA
Bernd Groner, Georg-Speyer Haus, Frankfurt am Main/Germany
Michael Hubalek, Department of Obstetrics and Gynecology, Medical University of Innsbruck, Innsbruck/Austria
Farid Saad, Global Medical Affairs Andrology, Bayer Pharma AG, Berlin/Germany
Andrew V. Schally, Departments of Pathology and Medicine, University of Miami, Miller School of Medicine, Miami/USA

Corresponding Editors
Michael N. Alexis, Institute of Biology, Medicinal Chemistry and Biotechnology, National Hellenic Research Foundation, Athens/Greece
Aria Baniahmad, Institute of Human Genetics, Jena University Hospital, Jena/Germany
Miguel Beato, Centre for Genomic Regulation, The Barcelona Institute for Science and Technology, Barcelona/Spain
Roger Bouillon, Clinical and Experimental Endocrinology, KU Leuven, Leuven/Belgium

*Prices in US$ apply to orders placed in the Americas only. Prices in GBP apply to orders placed in Great Britain only. Prices in € represent the retail prices valid in Germany (unless otherwise indicated). Prices are subject to change without notice. Prices do not include postage and handling if applicable. Free shipping for non-business customers when ordering books at De Gruyter Online. RRP: Recommended Retail Price.
