HORMONE MOLECULAR BIOLOGY AND CLINICAL INVESTIGATION

Ed. by Gérard S. Chetrite

Objective

Hormone Molecular Biology and Clinical Investigation (HMBCI) is dedicated to the provision of basic data on molecular aspects of hormones in physiology and pathophysiology. The journal covers the treatment of major diseases, such as endocrine cancers (breast, prostate, endometrium, ovary), renal and lymphoid carcinoma, hypertension, cardiovascular systems, osteoporosis, hormone deficiency in menopause and andropause, obesity, diabetes, brain and related diseases, metabolic syndrome, sexual dysfunction, fetal and pregnancy diseases, as well as the treatment of dysfunctions and deficiencies. HMBCI covers new data on the different steps and factors involved in the mechanism of hormone action. It will equally examine the relation of hormones with the immune system and its environment, as well as new developments in hormone measurements. HMBCI is a blind peer reviewed journal and publishes in English: Original articles, Reviews, Mini Reviews, Short Communications, Case Reports, Letters to the Editor and Opinion papers. Ahead-of-print publishing ensures faster processing of fully proof-read, DOI-citable articles.

Topics

- The superfamily of receptors of the different hormones (steroids, polypeptides and related hormones), and co-regulators (activators and repressors);
- Hormones related to the function of growth factors, oncogenes, and cytokines, in normal and neoplastic tissues;
- Enzymes and anti-enzymes involved in the formation and disposition of various hormones in connection with the diseases stated above;
- Hormone signaling and response to hormone therapy;
- Mechanism of cancer cell proliferation under endocrine therapy;
- Resistance to hormone therapy and its mechanism;
- Hormones and the brain and other neuroendocrine organs;
- Hormone replacement therapy;
- Pre-clinical studies to test new molecules in isolated models and in human trials;

SUBSCRIPTION RATES FOR 2018

Online:
Institutional
€ [D] 534.00 / US$ 801.00 / GBP 438.00
Subscription
€ [D] 99.00 / US$ 149.00 / GBP 80.00
4 Issues per year
Online ISSN: 1868-1891

Language of Publication: English

Subjects:
Clinical Medicine, Clinical Medicine, other Molecular Biology

Of interest to:
Researchers and practitioners interested in the topic of HMBCI

CiteScore 2017: 2.48
SCImago Journal Rank (SJR) 2017: 1.021
Source Normalized Impact per Paper (SNIP) 2017: 0.830

Hormones and the immune system;
Hormones and the environment;
Initiation and evolution of diseases related to the mechanism of action of hormones;
Therapeutic effect of hormones with regard to the method of administration.

Article formats
Original articles, Reviews, Mini Reviews, Short Communications, Case Reports, Letters to the Editor and Opinion papers

Information on Submission Process

Your benefits
- Most recent research on urgent health issues related to hormones
- Thorough selection of top articles within particular fields
- Internationally recognized editorial board boosting the prestige of articles
- Quick access to issues thanks to ahead of print publishing

Editor-in-Chief
Gérard S. Chetrite
Faculty of Medicine
Paris-Sud University
Paris/France
E-mail: gerard.chetrite@u-psud.fr

Associate Editors
- Bruno Feve, Centre de Recherche Saint-Antoine, Faculté de Médecine Pierre et Marie Curie, Paris/France
- Michelle T. Foster, Department of Food Science and Human Nutrition, Colorado State University, Fort Collins/USA
- Bernd Groner, Georg-Speyer Haus, Frankfurt am Main/Germany
- Michael Hubalek, Department of Obstetrics and Gynecology, Medical University of Innsbruck, Innsbruck/Austria
- Farid Saad, Global Medical Affairs Andrology, Bayer Pharma AG, Berlin/Germany
- Andrew V. Schally, Departments of Pathology and Medicine, University of Miami, Miller School of Medicine, Miami/USA

Corresponding Editors
- Michael N. Alexis, Institute of Biology, Medicinal Chemistry and Biotechnology, National Hellenic Research Foundation, Athens/Greece
- Aria Baniahmad, Institute of Human Genetics, Jena University Hospital, Jena/Germany
- Miguel Beato, Centre for Genomic Regulation, The Barcelona Institute for Science and Technology, Barcelona/Spain
- Roger Bouillon, Clinical and Experimental Endocrinology, KU Leuven, Leuven/Belgium
