Objective
The International Journal of Nursing Education Scholarship (IJNES) publishes significant research and scholarship in the broad field of nursing education. The mandate of the journal is to present high-quality papers to advance nursing education through research, description of innovative methods, or introduction of novel approaches about all aspects of nursing education in a timely manner. The specific aims of IJNES are to: promote worldwide scholarship in nursing education, enhance and advance nursing education globally, and provide a forum for the dissemination of international perspectives and scholarship in nursing education.

Topics
- Student, faculty, curriculum, and program development and evaluation
- Theoretically-based teaching and learning strategies in classroom, clinical, and flexible learning contexts
- Issues and trends in nursing education
- Administration and leadership of nursing education programs

Article formats
Research, expository, and short exemplar articles, as well as critical literature reviews about diploma, degree, post-graduate and continuing education are invited from colleagues around the world.

Information on submission process

Your benefits
- Most recent research and scholarship on nursing education
- International perspective on nursing education and the scholarship of nursing education
- Outstanding platform for communication about nursing education research and practice
