Objective

*Journal of Applied Analysis* is an international journal devoted to applications of mathematical analysis. Among them there are applications to economics (in particular finance and insurance), mathematical physics, mechanics and computer sciences. The journal also welcomes works showing connections between mathematical analysis and other domains of mathematics such as geometry, topology, logic and set theory.

The journal is jointly produced by the Institute of Mathematics of the Technical University of Łódź and De Gruyter.

Topics

Topics include:

- applications of mathematical analysis (real and complex, harmonic, convex, variational)
- differential equations
- dynamical systems
- optimization (linear, nonlinear, convex, nonsmooth, multicriterial)
- optimal control
- stochastic modeling and probability theory
- numerical methods

Article formats

Research articles

> Information on submission process

Your benefits:

- Cutting-edge solutions applicable in various academic fields
- Novel methods and tools in mathematical analysis
- High quality peer-review

SUBSCRIPTION RATES FOR 2018

Online:

- Institutional: € [D] 117.00 / US$ 175.00 / GBP 96.00*
- Subscription: € [D] 49.00 / US$ 74.00 / GBP 40.00*

Print:

- Institutional: € [D] 117.00 / US$ 175.00 / GBP 96.00*
- Subscription: € [D] 117.00 / US$ 175.00 / GBP 96.00*

Print + Online:

- Institutional: € [D] 142.00 / US$ 212.00 / GBP 117.00*
- Subscription: € [D] 142.00 / US$ 212.00 / GBP 117.00*

Single Issue (Print):

- € [D] 64.00 / US$ 96.00 / GBP 53.00*

2 Issues per year

Print ISSN: 1425-6908

Online ISSN: 1869-6082

Language of Publication: English

Subjects:

Analysis

Numerical and Computational Mathematics

Of interest to: researchers in the field of economics (in particular finance and insurance), mathematical physics, mechanics and computer sciences
