Objective
The aim of the Journal of Pediatric Endocrinology and Metabolism (JPEM) is to diffuse speedily new medical information by publishing clinical investigations in pediatric endocrinology and basic research from all over the world. JPEM is the only international journal dedicated exclusively to endocrinology in the neonatal, pediatric and adolescent age groups. JPEM is a high-quality journal dedicated to pediatric endocrinology in its broadest sense, which is needed at this time of rapid expansion of the field of endocrinology. JPEM publishes Reviews, Original Research, Case Reports, Short Communications and Letters to the Editor (including comments on published papers). JPEM publishes supplements of proceedings and abstracts of pediatric endocrinology and diabetes society meetings.

Topics
- Pediatric endocrinology
- Pediatric diabetes
- Inherited metabolic diseases
