Objective

The Journal of Perinatal Medicine (JPM) is a truly international forum covering the entire field of perinatal medicine. It is an essential news source for all those obstetricians, neonatologists, perinatologists and allied health professionals who wish to keep abreast of progress in perinatal and related research. Ahead-of-print publishing ensures fastest possible knowledge transfer. The Journal provides statements on themes of topical interest as well as information and different views on controversial topics. It also informs about the academic, organisational and political aims and objectives of the World Association of Perinatal Medicine.

Topics

The journal covers the entire field of perinatal medicine, obstetrics and neonatology.

Article formats

Review articles, original articles, short communications, opinion papers, letters to the editor, WAPM-Newsletters

> Information on submission process

Your benefits:

- New results from the clinical and experimental areas
- Theoretical and practical aspects of all subdisciplines
- Fast transfer of knowledge
- Critical, high quality peer-review

Since 2014 the Journal of Perinatal Medicine is the official journal of the International Academy of Perinatal Medicine, the New York Perinatal Society and the Society The Fetus as a Patient.
