Objective

*Journal of Systems Science and Information* (JSSI) (ISSN 1478-9906, eISSN 2512-6660, CN10-1192/N) is a bimonthly, peer-reviewed multi-disciplinary journal that focuses on systems science and systems engineering, management science, and information science.

This journal aims to provide a platform for sharing new developments in the research fields of systems science and management science and promotes applications of these cutting-edge theories and methods to real world.

**Sponsored by:** Academy of Mathematics and Systems Science, Chinese Academy of Sciences

**Edited by:** Systems Engineering Society of China & Science Press

**Topics**

**Systems Science and Systems Engineering**

- Fundamental theories of systems science
- Applications of systems theories
- System dynamics
- System modeling and Simulation
- System evaluation
- Agent-based simulation

**Management Science**

- Theories and applications of management science
- Operation research
- Decision science
- Project management
- Crisis management
- Enterprise operations management

**Online:**

Free Access

6 issues per year

Online ISSN: 2512-6660

**Language of Publication:** English

**Subjects:**

- Applied Mathematics
- Business Management
- Management, Organization, Corporate Governance
- Business Management
- Business Informatics
- Information Management
- Mathematics and Statistics for Economists
- Econometrics

**Of interest to:**

Interdisciplinary audience interested in the topics of the journal
- Financial management
- Knowledge management
- Human resources management
- Technology management and technology innovation
- Service management
- Public management
- Macro-finance management
- Government management
- Sustainability management
- Business administration
- Operations management
- Logistics and supply chain management

Economics
- Macroeconomics
- Microeconomics
- Quantitative economics
- Econometrics
- Regional economics
- Energy economics
- Technical economics

Finance
- Financial engineering
- Risk management
- Quantitative finance
- Financial market

Modeling Technique
- Econometric models
- Time series models
- Artificial neural networks
- Evolutionary algorithms
- Swarm intelligence
- Rough sets and fuzzy systems
- Kernel based learning and SVM
- Bayesian models

Forecasting Science
- Forecasting theories and applications
- Ensemble forecasting
- Judgment forecasting
- Combination forecasting
- Industry data modeling and prediction: energy, real estate, non-ferrous metal, logistic, etc.
- Macroeconomic and financial forecasting
Information Science and Information Technology
- Theories and applications of information science
- Management information system
- Decision support system
- Forecasting support system
- Information technology
- Information management
- E-commerce

Article formats
Original research articles

Your benefits
- Multidisciplinary journal devoted to systems science and information
- Theoretical and practical implications
- Internationally recognized editorial board

Editor-in-Chief:
Shouyang Wang, Chinese Academy of Sciences, China

Managing Editors:
Jue Wang and Xun Zhang, Chinese Academy of Sciences, China

Editorial Board:
Antonio Boggia, University of Perugia, Italy
Bizhi Cao, Tokyo Institute of Technology, Japan
Dominique Champ-Brunet, Universite de Paris-Dauphine, France
Edwin T.C. Chang, Hong Kong Polytechnic University, Hong Kong, China
Fangru Chen, Columbia University, USA
Jian Chen, Tsinghua University, China
Edwin Dado, Nederlandse Defensie Academie, The Netherlands
Kalyanmoy Deb, Michigan State University, USA
Xiaotie Deng, Liverpool University, UK
Jichang Dong, University of Chinese Academy of Sciences, China
Rudolf Eger, Bauingenieruwesen-Verkehrswesen, Germany
Ying Fan, Chinese Academy of Sciences, China
Shu-Cherng Fang, North Carolina State University, USA
Yong Fang, Chinese Academy of Sciences, China
Gengzhong Feng, Xi’an Jiaotong University, China
Eugenia Furems, Russian Academy of Sciences, Russian
Ziyou Gao, Beijing Jiaotong University, China
Hossein Hassani, Bournemouth University, UK
Abdel-Rahman Hedar, Umm Al-Qura University, Egypt
Haijun Huang, Beihang University, China
Wayne Wei Huang, Ohio University, USA
Kleung Kin Lai, City University of Hong Kong, Hong Kong, China
Duan Li, Chinese University of Hong Kong, Hong Kong, China
Yijun Li, National Natural Science Foundation of China, China
