Objective

Zeitschrift für Naturforschung B (ZNB) publishes novel research in all areas of inorganic chemistry, organic chemistry, and analytical chemistry. In particular, the journal focuses on solid state chemistry, coordination chemistry, main group element chemistry, synthetic organic chemistry, natural product chemistry and, to a lesser extent, on analytical chemistry. For more than 65 years Zeitschrift für Naturforschung B has been open to contributions from all fields of experimental and theoretical chemistry. Zeitschrift für Naturforschung B publishes 12 issues per volume/year. Sometimes double issues occur.

Topics

- Solid state chemistry
- Coordination chemistry
- Main group element chemistry
- Organic chemistry
- Natural product chemistry

Article formats

Original (full) papers, research notes and preliminary communications, reports on specific research topics of current interest (reviews)

> Information on submission process

Your benefits:

- Novelty research in the field of chemical sciences
- High standards of publication
- Ahead of print publication
- International readership and global reach

SUBSCRIPTION RATES FOR 2018

Single Issue (Print):
€ [D] 104.00 / US$ 140.00 / GBP 85.00*

12 Issues per year
Print ISSN: 0932-0776
Online ISSN: 1865-7117

Language of Publication: English

Subjects:
- Inorganic Chemistry
- Nuclear Chemistry
- Organic Chemistry

Of interest to: Researchers in chemistry in academia and industry

IMPACT FACTOR 2017: 0.757
CiteScore 2017: 0.68
SCImago Journal Rank (SJR) 2017: 0.277
