Objective

*Communications: The European Journal of Communication Research* is an established forum for scholarship and academic debate in the field of communication science and research from a European perspective. Communication science is concerned with the investigation of the structure and function of communication processes and their impact on society, social groups and individuals. *Communications* highlights the concerns of this discipline through the publication of articles, research reports, review essays and book reviews on theoretical and methodological developments considered from a European perspective. The journal encompasses the entire field of communication science as its domain of interest. The contributions published in the journal cover a wide range of subfields in communication science.

Topics

- Communication research
- Structure and function of communication
