**Why submit**

All authors of Open Information Science enjoy the following benefits:

- no article processing charges (APCs) nor article submission charges in the issue 2018 and 2019 (one issue per year);
- fast, comprehensive and transparent peer-review;
- efficient route to fast-track publication;
- free language assistance for authors from non-English speaking regions;
- worldwide distribution and promotion of articles.

**Description**

Open Information Science (OIS) is a new, open access, cross-disciplinary, single-blind peer-reviewed journal that presents original research on all areas of Library and Information Sciences. It aims to publish the research papers on the most recent issues and developments in the field. OIS is particularly interested in the dissemination of the intellectual efforts of the global academic community in this field. This journal is going to be helpful for researchers, specialists, teachers and practitioners of librarianship.

Scope of the OIS includes:

- Library&Information Science – Theory&Practice
- Research Methods&Information Seeking
- Information Literacy
- Digital Libraries
- School&Academic Libraries
- Archiving, Collections – Cultural Heritage&Preservations

**Topical Issues:**

Online:
- Open Access
- 1 Issue per year
- Online ISSN: 2451-1781

**Language of Publication:** English

**Subjects:**
- Information Science
- Libraries and Library Science
- Preservation and Restoration

**Of interest to:** This journal is going to be helpful for researchers, specialists, teachers and practitioners of librarianship.
