The journal publishes research and review articles, rapid and short communications, comments and replies that cover the following areas of physical sciences:

- Acoustics
- Astrophysics,
- Atomic and Molecular Physics,
- Biological and Medical Physics,
- Complex Networks, Socio- and Econophysics,
- Computational Physics,
- Condensed Matter Physics,
- Cosmology and Gravitation,
- Fluid Mechanics,
- Geophysics,
- Nanophysics,
- Optics and Lasers,
- Particle and Nuclear Physics,
- Plasma Physics,
- Statistical and Nonlinear Physics,
- Surface Physics,
- Theoretical and Mathematical Physics.

**Why submit and read**

Open Physics is a premier source of a high quality research. All published articles are made freely and permanently accessible online.

Authors benefit from fair and constructive peer review, language-correction services and extensive promotion of each published article.

The journal uses continuous publication model - accepted manuscripts are published quickly after the acceptance.
Thanks to Open Access, all articles are freely available to the academic community worldwide without any restrictions, there are more liberal policies on copyrights (authors retain copyright) and on self-archiving (no embargo periods).

The journal is archived in Portico.

For the information on Article Processing Charges please go to Supplementary Information section below and view "Article Processing Charges" document (in PDF).

Detailed information on Editorial Policy, Publication Ethics, Instructions for Authors etc. can be found below and in the Supplementary Information section.

**Special Issues 2018:**

- **Applications of Nonlinear Dynamics**
  
  Guest Editors:
  
  Juan Luis García Guirao, Technical University of Cartagena, Spain
  Wei Gao, Yunnan Normal University, China

- **Clean Energy: Materials, Processes and Energy Generation**

  Guest Editor:
  
  Dr. Nasir M. Ahmad, National University of Sciences and Technology, Pakistan

- **The 18th International Symposium on Electromagnetic Fields in Mechatronics, Electrical and Electronic Engineering**

  Guest Editors:
  
  Slawomir Wiak, Lodz University of Technology, Poland
  Paolo Di Barba, Dept. of Electrical, Computer and Biomedical Engineering, University of Pavia, Italy
  Krzysztof Komeza, Lodz University of Technology, Poland

**Past Topical/Special Issues**

Open Physics is a peer-reviewed, open access, electronic journal devoted to the publication of fundamental research results in all fields of physics. The journal provides the readers with free, instant, and permanent access to all content worldwide; and the authors with extensive promotion of published articles, long-time preservation, language-correction services, no space constraints and immediate publication.

Open Physics is listed inter alia by Clarivate Analytics (formerly Thomson Reuters) - Current Contents/Physical, Chemical and Earth Sciences, JCR and SCIE. Our standard policy requires each paper to be reviewed by at least two Referees and the peer-review process is single-blind.
Astrophysics
James Bleach, Yukawa Institute of Theoretical Physics, Kyoto, Japan
Ed Hungerford, University of Houston, USA
Athina Meli, University of Gent, Belgium
Richard Olenick, Department of Physics, University of Dallas, USA

Atomic and Molecular Physics
Marcis Auzinsh, University of Latvia, Latvia
Gregory Lapicki, East Carolina University, Greenville, USA
Ana Proykova, University of Sofia, Bulgaria
Eugene Oks, Auburn University (AL), USA
C. H. Raymond Ooi, University of Malaya, Malaysia
Marta Maria Duarte Ramos, Department of Physics, University of Minho, Portugal
Guang-Jiu Zhao, Dalian Institute of Chemical Physics, Chinese Academy of Sciences, Dalian, China

Biological and Medical Physics
Akon Higuchi, National Central University, Taiwan // King Saud University, Saudi Arabia
Toshiyuki Ikoma, Tokyo Institute of Technology, Japan
Milos Janecek, Department of Physics of Materials, University in Prague, Czech Republic
CheolGi Kim, Department of Emerging Materials Science, DGIST, Dalseong-Gun, Korea
Paolo Mariani, Department of Life Sciences and Environmental Molecular Biophysics Group Marche Polytechnic University, Italy
Adrian Neagu, Victor Babes University of Medicine and Pharmacy, Timisoara, Romania
Anthony J. Nicastro, Department of Physics, West Chester University of Pennsylvania, USA
Marta Maria Duarte Ramos, Department of Physics, University of Minho, Portugal
Istvan Simon, Hungarian Academy of Sciences, Hungary
Olgierd Stieler, University of Medical Sciences, Biophysics Department, Poznań
Yoh-ichi Tagawa, Tokyo Institute of Technology, Japan
Sie Chin Tjong, Department of Physics and Materials Science, City University of Hong Kong, Hong Kong
José L. Toca-Herrera, University of Natural Resources and Life Sciences - BOKU, Vienna, Austria
Peter K. N. Yu, Department of Physics and Materials Science, City University of Hong Kong, Hong Kong

Complex Networks, Socio- and Econophysics
Pak Ming Hui, Department of Physics, Chinese University of Hong Kong, Hong Kong
Elka Koroutcheva, Universidad Nacional de Educacion a Distancia, Spain;
Institute of Solid State Physics, Bulgaria
Krzysztof Malarz, AGH University of Science and Technology, Cracow, Poland
Computational Physics
Martin Kröger, Swiss Federal Institute of Technology, ETH Zurich, Switzerland
Luis Silvino Alves Marques, Department of Physics, University of Minho, Portugal
Miroslav Pinak, Japan Atomic Energy Agency, Japan
Marta Maria Duarte Ramos, Department of Physics, University of Minho, Portugal
Nikolai Zarkevich, Robert Bosch Research Center, Cambridge, USA

Condensed Matter Physics
Kwok Sum Chan, Department of Physics and Materials Science, City University of Hong Kong, Hong Kong
Suresh Mavila Chathoth, Department of Physics and Materials Science, City University of Hong Kong, Hong Kong
Myroslav Holovko, National Academy of Sciences of Ukraine, Ukraine
Milos Janecek, Department of Physics of Materials, University in Prague, Czech Republic
Radi A. Jishi, Department of Physics and Astronomy, California State University, Los Angeles, USA
Jani Kotakoski, Department of Physics, University of Vienna, Austria
Bertrand Lenoir, Institut Jean Lamour, Université de Lorraine, France
Paolo Mariani, Department of Life Sciences and Environmental Molecular Biophysics Group Marche Polytechnic University, Italy
Robert Mayanovic, Department of Physics, Astronomy & Materials Science, Missouri State University, USA
Roman Micnas, Adam Mickiewicz University, Poznań, Poland
Genene Tessema Mola, University of KwaZulu-Natal, Pietermaritzburg, South Africa
Ihor Mryglod, National Academy of Sciences of Ukraine, Ukraine
Nenad Novkovski, University St. Cyril and Methodius in Skopje, Macedonia
Anura Samantilleke, Centro de Fisica, Universidade do Minho, Portugal
Vladimir Sobolev, South Dakota School of Mines & Technology, USA

Cosmology and Gravitation
Salvatore Capozziello, University of Naples "Federico II", Italy
Herbert W. Hamber, The University of California, USA
Elias C. Vagenas, Kuwait University, Kuwait

Fluid Mechanics
Liang Gong, Department of Energy & Power Engineering, China University Of Petroleum, China
Heimo Walter, Vienna University of Technology, Institute for Energy Systems and Thermodynamics, Austria
Yoshifumi Kimura, Nagoya University, Japan
Vaclav Kolar, Academy of Sciences of the Czech Republic, Czech Republic
Hendrik Kuhlmann, Vienna University of Technology, Institute of Fluid Mechanics and Heat Transfer, Austria
Mitsuhiro Ohta, Department of Mechanical Engineering, Tokushima University, Japan
Jiang Qin, Harbin Institute of Technology, China
Gongnan Xie, Department of Mechanical and Power Engineering, Northwestern Polytechnical University, China

Geophysics
Giovanni Leucci, National Research Council (CNR), Institute for Archaeological and Monumental Heritage (IBAM), Italy
Yuh-Lang Lin, Department of Physics, North Carolina AT State University, USA

Nanophysics
Kong Ling Bing, School of Materials Science and Engineering Nanyang Technological University, Singapore
R. Mark Bradley, Department of Physics, Colorado State University, USA
Kwok Sum Chan, Department of Physics and Materials Science, City University of Hong Kong, Hong Kong
Kin Hung Fung, Department of Applied Physics, Hong Kong Polytechnic University, Hong Kong
Nina E. Gorji, School of Electronic Engineering, Dublin City University, Dublin, Ireland
Haitao Huang, Hong Kong Polytechnic University, Hong Kong
Milos Janecek, Department of Physics of Materials, University in Prague, Czech Republic
Jani Kotakoski, Department of Physics, University of Vienna, Austria
CheolGi Kim, Department of Emerging Materials Science, DGIST, Dalseong-Gun, Korea
Genene Tessema Mola, University of KwaZulu-Natal, Pietermaritzburg, South Africa
Arkadiusz Ptak, Poznań University of Technology, Poland
Hongzhou Zhang, School of Physics, CRANN PI Trinity College Dublin, Ireland

Optics and Lasers
Beata Derkowska, Nicholas Copernicus University, Toruń, Poland
Ya Yan Lu, Department of Mathematics, City University of Hong Kong, Hong Kong
Nasrin Mirsaleh-Kohan, Department of Chemistry & Biochemistry, Texas Women University, Denton, USA
Branislav Radjenovic, Institute of Physics, University of Belgrade, Serbia

Particle and Nuclear Physics
Lesya Borowska, NSSL, NOAA, USA
Ricardo González Felipe, Physics Centre of Particle Theory, Department of Physics - IST, Portugal
Naoyuki Haba, Shimane university, Japan
Gregory C. Hillhouse, The Botswana International University of Science and Technology, Botswana
Ed Hungerford, University of Houston, USA
Giovanni De Lellis, University of Naples Federico II, Italy
Rajeev K. Puri, Physics Department, Panjab University, Chandigarh, India

degruyter.com
Plasma Physics
Davide Bleiner, University of Bern, Switzerland
Robert Bogdanowicz, Gdansk University of Technology, Department of
Metrology & Optoelectronics, Gdansk
Luis Silvino Alves Marques, Department of Physics, University of Minho,
Portugal
Ivane Murusidze, Ilia State University, Institute of Applied Physics, Georgia
Evgueni Oks, Auburn University (AL), USA
Marija Radmilović-Radjenović, Institute of Physics, University of Belgrade,
Serbia
Piotr Wiewiór, University of Nevada, Reno, USA

Statistical and Nonlinear Physics
Zdzislaw Burda, AGH University of Science and Technology, Cracow, Poland
Roberto Franzosi, National Institute of Optics, Firenze, Italy
Pak Ming Hui, Department of Physics, Chinese University of Hong Kong, Hong
Kong
Hongyun Wang, Department of Applied Mathematics and Statistics, University
of California, Santa Cruz, USA

Surface Physics
Kong Ling Bing, School of Materials Science and Engineering Nanyang
Technological University, Singapore
Klaus Christmann, Freie Universität Berlin, Germany
Yukihiro Kusano, Technical University of Denmark, Roskilde, Denmark
Haitao Huang, Hong Kong Polytechnic University, Hong Kong
Genene Tessema Mola, University of KwaZulu-Natal, Pietermaritzburg, South
Africa
Cristian Theodorescu, National Institute of Materials Physics, Măgurele,
Romania

Theoretical and Mathematical Physics
Henrik Aratyn, Department of Physics, University of Illinois at Chicago, USA
Dumitru Baleanu, Cankaya University, Ankara, Turkey
Carlo Cattani, University of Salerno, Italy
Piotr T. Chruściel, University of Vienna, Austria
Shi-Hai Dong, National Polytechnic Institute, Mexico
Emanuel Guariglia, Department of Physics "E.R. Caianiello", University of
Salerno, Italy
Juan Luis García Guirao, Technical University of Cartagena, Spain
Ferenc Markus, Budapest University of Technology and Economics, Hungary
Roberto Mignani, Department of Mathematics and Physics, University of
Studies of Rome "Roma Tre", Italy
Ihar A. Miklashevich, Belarusian National Technic University, Minsk, Belarus
Xiao-Jun Yang, China University of Mining and Technology, China
Shou-Fu Tian, Department of Mathematics, China University of Mining and
Technology, Xuzhou, China
