Objective
Zeitschrift für Physikalische Chemie (ZPC), founded in 1887, covers the main developments in physical chemistry with emphasis on experimental and theoretical research. It represents a combination of reaction kinetics and spectroscopy, quantum theory, surface research and electrochemistry, thermodynamics and structure analysis of matter in its various conditions. Short times for peer review and publication can be guaranteed for high quality submissions.

Topics
- reaction kinetics
- spectroscopy
- surface research
- electrochemistry
- thermodynamics
- structure analysis

Article formats
Original paper, review paper
