The Balkan Journal of Dental Medicine is a peer-reviewed open access journal of medicine which is published 3 times per year on March, July and November in English. The journal is the official publication of the Balkan Stomatological Society (BaSS). The journal's publishers is the De Gruyter Open. The abbreviated title is the Balk J Dent Med (BJDM).

This Journal publishes original, review articles, case reports, short communications and perspective articles placing an emphasis on publishing novel and high-quality papers. Topics covered include the management of dental disease, periodontology, endodontology, operative dentistry, fixed and removable prosthodontics, dental biomaterials science, longterm clinical trials including epidemiology and oral health, technology transfer of new scientific instrumentation or procedures, as well as clinically relevant oral biology and translational research.

Balkan Journal of Dental Medicine strives to achieve an understanding of the immensely complex dental sciences by providing highly relevant information to readers involved in basic and clinical investigation.

The aim of the Balkan Journal of Dental Medicine follows the primary goals of the BaSS- bringing specialists from different fields of dentistry throughout the Balkans closer together, keeping Balkan dental professionals well informed, and improvement of communication and knowledge.

**Similarity Check Plagiarism Screening System**

The editorial board is participating in a growing community of Similarity Check System's users in order to ensure that the content published is original and trustworthy. Similarity Check is a medium that allows for comprehensive manuscripts screening, aimed to eliminate plagiarism and provide a high standard and quality peer-review process.
Detailed description of the Similarity Check System can be found at:
