BULLETIN OF GEOGRAPHY. SOCIO-ECONOMIC SERIES
The Journal of Nicolaus Copernicus University, Torun

Why subscribe and read

▸ a wide array of high quality original articles
▸ the articles published after double-blind peer review provided by minimum two subject experts (including foreign ones)
▸ a full database of up-to-date research results in human geography, economic geography – both theoretical and empirical
▸ a platform for exchanging ideas between the scientists from many countries of the World
▸ the Advisory Council, distinguished scientists from 31 different countries and from 51 research centres (universities and scientific institutes)

Why submit

▸ The articles of both domestic and foreign authors are always up-to-date, original, never printed before in other scientific publications, fulfill high scientific standards, and have very good educational value.
▸ The articles are published after double-blind peer review provided by minimum two subject experts. The reviews are anonymous, neither author nor reviewer knows the other’s identity.
▸ The rejection rate of articles amounts to approximately 70%.
▸ All articles have language assistance for authors from non-English speaking countries.
▸ The editors provide fast route for the publication process and full access to DeGruyter e-technology.
▸ Journal is highly evaluated and indexed e.g. on the Polish Ministry of Science and Higher Education Evaluated Journals List.

Rejection Rate

▸ about 70%
