

ANALYSIS AND GEOMETRY IN METRIC SPACES

EFFECTIVE DECEMBER 2020

ARTICLE PROCESSING CHARGES

In order to sustain the production of our fully-refereed open access journal, each article accepted for publication in [Analysis and Geometry in Metric Spaces](#) is subject to an Article Processing Charge of €1000. This fee is used to cover the costs of manuscript processing, professional typesetting and copyediting, as well as online hosting, long-term preservation, content aggregators worldwide, and extensive promotion to potential readers.

SPECIAL OFFER

All papers submitted in 2021 will have the Article Processing Charges (APCs) reduced by 25% (to 750€)

Editors and reviewers are not involved in author payment process and do not discuss charges with authors. The ability to pay does not influence whether or not a manuscript is accepted for publication.

Information regarding payment of these charges will be provided following acceptance for publication. There are no submission charges – Article Processing Charges apply after the acceptance of a manuscript. Inquiries concerning Article Processing Charges should be addressed **before or immediately after submission of a paper** to the Editorial Office.

WAIVER POLICIES

If the submitting author is affiliated with an organization which is listed as an [Institutional Member](#), this membership offers a discount on the Article Processing Charge and the author has a reduced expense. Moreover, the authors who work for institutions in developing countries (countries classified by the World Bank as [low-income](#) and [lower-middle-income](#) economies) may apply for a waiver. Other authors who do not fulfill these criteria can also request a waiver or a discount during the submission process.

FUNDING OPPORTUNITIES

Authors who are looking for funds to support the payment of Article Processing Charges have a number of options to consider. For details visit our [website](#).
