Ethnobotanical, Phytochemical and Biological Investigation of Medicinal Plants

GUEST EDITOR

Dr Riaz Ullah - Department of Pharmacognosy, College of Pharmacy, King Saud University, Riyadh, Saudi Arabia

DESCRIPTION

According to WHO 80% of the world population still depend on the traditional knowledge of medicinal plants for their primary health care treatments against different diseases. Thousands of researchers around the world are working on the exploration of medicinal plants. Keeping in mind the importance of medicinal plants, the editorial board is pleased to announce a special issue purely dedicated to review articles.

Review articles on Anti-cancer, Antidiabetic, hepato-protective, anti-malarial, etc activities of medicinal plants or phyto-constituents are highly welcome from around the world. The purpose of this issue is to provide up-to-date findings/knowledge of selected topics in a single MS to the researchers working in the same field.

Submissions deadline: 31.01.2022

HOW TO SUBMIT

The authors are kindly invited to register at our paper processing system and submit their contribution (both original papers or reviews are welcome) using a special track established for this topical issue: Section/Category – “Special Issue on Ethnobotanical, Phytochemical and Biological Investigation of Medicinal Plants”.

All manuscripts will undergo the standard peer-review process (single-blind, at least two independent reviewers) and will be treated in the same way as other regular articles (indexing, abstracting, immediate publication, etc.). Instructions for authors are available here.

In case of any questions please contact Open Chemistry Managing Editor: Karolina Kurtyka (openchemistry@degruyter.com).
