

DESCRIPTION

The International Conference on Functional Materials and Chemical Engineering (**ICFMCE 2021**) will be held in Bangkok, Thailand during **December 13-15, 2021**.

The International Conference on Functional Materials and Chemical Engineering (ICFMCE 2021) aims to bring together Chemical Engineers and Materials Engineers in a single platform and present their stimulating research and knowledge transfer ideas in both Chemical Engineering and Functional Materials. However, the Organizing Committee also recognise that the future for engineers is one where they will be working in interdisciplinary teams to solve new, complex and evolving problems that will require innovative solutions. Therefore, they encourage the participation of other disciplines in this conference where multidisciplinary research and knowledge transfer projects are presented.

HOW TO SUBMIT

The authors are kindly invited to register at our paper processing [system](#) and submit their contribution (both original papers or reviews are welcome) using a special track established for this special issue: Section/Category – **"Special Issue on the ICFMCE 2021"**.

All manuscripts will undergo the standard peer-review process (single-blind, at least two independent reviewers) and will be treated in the same way as other regular articles (indexing, abstracting, immediate publication, etc.). Instructions for authors are available [here](#).

More information about the conference, such as deadlines and preliminary schedule, can be accessed at <http://www.icfmce.org/> or by email at icfmce@iased.org (Conference Secretary: Tiya T. Deng).

In case of any questions please contact [Open Chemistry](#) Managing Editor: Karolina Kurtyka (openchemistry@degruyter.com).
