

DE GRUYTER

CONCRETE OPERATORS

EFFECTIVE JULY 2021

Article Processing Charges

In order to sustain the production of our fully-refereed open access journal, each article accepted for publication in *Concrete Operators* is subject to an Article Processing Charge. The standard APC amounts to €500, Covering this fee is not mandatory, but we want to encourage authors to declare their willingness to cover the APC (or part of it).

This fee is used to cover the costs of the peer-review process, professional typesetting and copyediting, as well as online hosting, long-term preservation, distribution to libraries and content aggregators worldwide, and extensive promotion to potential readers.

All Authors are encouraged to apply for a **waiver or a discount** due to the Journal's extensive waiver and discount policy, and the Authors with no funding for publication are not expected to pay. All inquiries concerning Article Processing Charges should be addressed **before or immediately after submission of a paper** to the EiC at the email address conop.editorial@degruyter.com, so the waivers/further discounts can be reserved in advance.

Information regarding payment of these charges will be provided following acceptance for publication. There are no submission charges – Article Processing Charges apply after the acceptance of a manuscript.

Reviewers are not involved in author payment process and do not discuss charges with authors. The ability to pay does not influence whether or not a manuscript is accepted for publication.

Waiver Policies

If the submitting author is affiliated with an organization which is listed as an [Institutional Member](#), this membership offers a discount on the Article Processing Charge and the author has a reduced expense. However, other authors who do not fulfill these criteria can also request a waiver or a discount during the submission process.

Funding Opportunities

Authors who are looking for funds to support the payment of Article Processing Charges have a number of options to consider. For details visit our website.
