

SPECIAL ISSUE ON ECONOMETRICS AND BUSINESS ANALYTICS

GUEST EDITOR

Artem Prokhorov

DESCRIPTION

Dependence plays a key role in economic, financial and business analytics models. This Special Issue will focus on statistical dependence in models of production and exchange.

The Special Issue will be linked to the **1st International Conference in Econometrics and Business Analytics** that will take place at St. Petersburg State University, Russia, on July 15th-17th, 2021, and will bring together experts in econometrics, quantitative finance, optimization and computer science, with interest in business, finance and economics applications.

Both original research contributions and survey papers on dependence in Econometrics and Business Analytics with a particular focus on models of production and exchange are welcome.

HOW TO SUBMIT

All submissions to the special issue must be made electronically at: <http://www.editorialmanager.com/depmod/> and will undergo the standard peer review process. When submitting your paper please choose:

“SI on Econometrics and Business Analytics”.

The deadline for submissions is August 18th, 2021 but individual papers will be reviewed and published online on an ongoing basis.

Contributors to this Special Issue will benefit from:

- ▶ No article publication fees
- ▶ No Copyright constraints
- ▶ Unlimited and free Open Access for all readers
- ▶ Fair and constructive peer review provided by experts in the field
- ▶ Fast online publication of articles

We are looking forward to your submission. If you have any question, please contact us at: demo.editorial@degruyter.com
