

# AUTOMAATIOPÄIVÄT24 (24<sup>TH</sup> AUTOMATION CONFERENCE OF THE FINNISH SOCIETY OF AUTOMATION)

## GUEST EDITORS

---

David Hästbacka, D.Sc. (Tech.), Tampere University, Finland

Esko Juuso, D.Sc. (Tech.), University of Oulu, Finland

## DESCRIPTION

---

**Automaatiopäivät24** is the **24<sup>th</sup> Automation Conference of the Finnish Society of Automation**. It is the society's most important conference in the fields of automation and digitalization of processes, factories and production as well as emerging applications in healthcare robotics and resilience in societies. The program will contain presentations from both the industrial and the scientific worlds. The conference will be a forum for networking between educational, research and business sectors.

The themes of the 24<sup>th</sup> automation conference are based around the environment, circular economy, sustainability, digitalization, applications of AI and continuous learning.

## HOW TO SUBMIT

---

The Special Issue "**Automation in Finland**" is for the full articles of the academic or scientific contributions accepted for the conference. The articles should be written in English.
