Greetings

Welcome to the official website of the 6th International Conference on Industrial, Mechanical, Electrical and Chemical Engineering (ICIMECE 2020), which will be held on 15 September 2020 at Alana Hotel & Convention Center, Solo, Indonesia and it is organized by the Universitas Sebelas Maret (UNS).

This was formerly known as IMECE which was first held in November 2015. Paper in the former conference has successfully been published in the conference proceedings, which is indexed by Scopus. This event will include the participation of renowned keynote speakers, workshop, oral presentations, and technical conferences related to the topics dealt with within the Program.

The conference theme is “Towards the development of intelligent green technology to contribute high energy efficiency with low environmental impact”. The conference will address the practical engineering application (mechanicals, electicals, energy and power engineering, industrial engineering, and chemical engineering). This conference provides opportunities for the delegates to exchange new ideas face-to-face to bring together leading academic scientists, researchers, and research scholars to exchange and share their experiences and research results on all aspects of engineering, science, and technology. The conference program will consist of conference workshops, plenary/keynote speeches, invited sessions as well as oral sessions.
