Intercultural Pragmatics

Instructions for Authors

Please submit your paper as an email attachment to icup@albany.edu

**Personal data** with the title, name, affiliation, ORCID number, email and postal address, and a short bio (50-70 words) should be submitted with the paper in a separate file.

The journal operates a **blind peer review** that takes approximately 3-4 months. Submissions are sent to 2-3 reviewers whose comments will be available to the authors after the review process. Every effort is made to respond to the authors in a timely manner.

**Abstract** must be no more than one page summarizing the main points of the paper.

**Manuscripts**

Papers can be max. 9,500 words + references + appendix. The paper should be divided into sections with appropriate headings in bold. If necessary, subsections can also be used with italicized headings (not just numbers). (Please do not use bold in subsection headings.)
Examples should be given in italics and numbered consecutively. Examples in languages other than English should be given in Romanized script, and in italics; any gloss should be aligned, followed by the English translation in single quotation marks. For bi- and multilingual examples, use italics for one language, CAPITALS and underlining for the others (in that order).

Footnotes are allowed but should be kept to an absolute minimum. They should be marked consecutively throughout the text by a raised number following a punctuation mark.

References are cited in the text by giving the name of the author/editor, year of publication, and the page reference, all in parentheses, for example (Wierzbicka 1999a: 23). The reference section should contain all works referred to in the text and only those. They must be listed fully in alphabetical order of author/editor, with complete bibliographical details (including publisher). First name of authors is required. Journal and book titles must be given in full and must be printed in italics. Page references must be given for articles in books and journals. References should conform to the following examples:

Please see the De Gruyter Mouton journal style sheet for further information regarding the proper formatting of your manuscript.
