### **Editing time**

The editors of the *Journal of Economics and Statistics* try to provide a fast first feedback to the authors of submitted manuscripts. Nevertheless, screening and reviewing of the submissions requires some time.

In the last 5 years, the median time until the first feedback to the authors amounted to 90 days, while the 90 percent quantile was slightly below five months.

If the authors are invited to resubmit a revised version of their paper, this revision usually should be provided within three months.
