

# Journal of Laboratory Medicine

PUBLICATION FEES EFFECTIVE (last update December 5, 2023)

## Article Processing Charges

In order to maintain the production of our fully peer-reviewed open access journal, an article processing charge of €2,000.00 is charged for each article accepted for publication in *JLM*. This fee is used to cover the costs of peer review, professional typesetting and copyediting, as well as online hosting, long-term storage, distribution to libraries and content aggregators worldwide, and extensive promotion to potential readers. Information on the payment of these processing fees will be provided after acceptance of the article for publication.

Open access publication is partially funded by an unrestricted education grant provided by the German Society of Clinical Chemistry and Laboratory Medicine (DGKL) and the Austrian Society of Laboratory Medicine and Clinical Chemistry (ÖGLMKC).
