

The [“5th Edition of Global Conference on Pediatrics and Neonatology \(EPN 2023\)”](#) will be held virtually and at London, UK as a hybrid event, slated during August 28-30, 2023 and will proceed with the theme “Paving the way for little feet through advances in Paediatrics”.

This [Pediatrics Conferences](#) focuses on disseminating current and up-to-date scientific information spanning the entire spectrum of pediatrics and neonatology. Neonatology three days hybrid meeting will emphasize current research in the field of paediatrics and neonatology, as well as novel treatment approaches developed by scientists to make treatment more effective. [International Neonatology Conference](#) provides attendees with an excellent opportunity to hear about current trends in pediatric research and development and network with peers and delegates. [Neonatal Conferences](#) intends to share and exchange new ideas among researchers, scientists, healthcare practitioners, child care experts, paediatricians, neonatologists, nurses, industrialists, and students working in the fields of paediatrics and neonatology to share their research experiences and participate in interactive discussions, plenary talks, keynote sessions, oral and poster presentations.
