

Conference Full name: 4th Edition of Global Conference on Addiction Medicine, Behavioral Health and Psychiatry

Short Name: GAB 2023

Dates: October 19-21, 2023

Venue: Boston, Massachusetts, USA

About Conference

[4th Edition of Global Conference on Addiction Medicine, Behavioral Health and Psychiatry](#) (GAB 2023) which will be held at **Boston, Massachusetts, USA** and virtually during the dates **October 19-21, 2023**.

This [Addiction Conference](#) deliberations will be on the theme *“Vision for Controlling Narcotic Dependency and Relapse.”*

The main goal of [Behavioral Health Conference](#) is to bring together like-minded people including researchers, scientists, psychiatrists, neurologists, healthcare professionals, therapists, students, and caregivers to determine the future of research, which will affect the world’s future. The event will rewire your brain using cutting-edge technology and techniques that will enhance your self-esteem and confidence. The global summit will showcase scientific research on the most recent breakthroughs, with keynote speeches, invited lectures, and oral and poster presentation papers. We hope you will be able to join us in collaborating with the world's best scientists to take a delved deeper at what is involved in addiction therapy and research by investigating new opportunities and enhancing existing ones.
