

# SPECIAL MATRICES

EFFECTIVE DECEMBER 2019

---

## ARTICLE PROCESSING CHARGES

In order to sustain the production of our fully-refereed open access journal, each article accepted for publication in *Special Matrices* is subject to a standard Article Processing Charge of €1000. This fee is used to cover the costs of manuscript processing, professional typesetting and copyediting, as well as online hosting, long-term preservation, distribution to libraries and content aggregators worldwide, and extensive promotion to potential readers.

The standard Article Processing Charge can be **discounted** or totally **waived** upon agreement with the Editor. All Authors can apply for a waiver or a discount due to the Journal's extensive waiver and discount policy. All inquiries concerning Article Processing Charges should be addressed **before or immediately after submission of a paper** to the Editor-in-Chief at the email address [spma.editorial@degruyter.com](mailto:spma.editorial@degruyter.com).

Information regarding payment of these charges will be provided following acceptance for publication. There are no submission charges – Article Processing Charges apply after the acceptance of a manuscript.

Reviewers are not involved in author payment process and do not discuss charges with authors. The ability to pay does not influence whether or not a manuscript is accepted for publication.

## WAIVER POLICIES

If the submitting author is affiliated with an organization which is listed as an [Institutional Member](#), this membership covers the cost of the Article Processing Charge and the author is exempt of any further expenses. However, other authors who do not fulfill these criteria can also request a waiver or a discount during the submission process.

## FUNDING OPPORTUNITIES

Authors who are looking for funds to support the payment of Article Processing Charges have a number of options to consider. For details visit our [website](#).
