

NEW TRENDS IN FUNCTIONAL ANALYSIS AND APPLICATIONS

COORDINATING EDITORS

Dr Mokhwewtha Daniel Mabula, Dr Charles Maepa and Prof Seithuti Philemon Moshokoa

Mathematics Senior Lecturers, University of Pretoria, South Africa and Professor, Tshwane University of Technology, Mokhwewtha.mabula@up.ac.za, Charles.maepa@up.ac.za and moshokoasp@tut.ac.za

DESCRIPTION

The topics should cover theory of Functional Analysis, applications of Functional Analysis in Economics, Quantum physics and asymmetric structures of Functional Analysis.

Based on Conferences Topology, Algebra, Analysis and Geometry (TAAAG)

SCOPE:

- ▶ Operator Theory (Linear and Non Linear)
- ▶ Mathematical Economics
- ▶ (Ordered) Topological vector spaces
- ▶ Asymmetric structure

HOW TO SUBMIT

All submissions to the special issue must be made electronically at <https://www.editorialmanager.com/taa/default.aspx> and will undergo the standard peer review process. When submitting your paper please choose

"SI - New Trends in Functional Analysis and Applications"

The deadline for the submissions is **November 30, 2021** but individual papers will be reviewed and published online on an ongoing basis.

Contributors to this Special Issue will benefit from:

- ▶ No article publication fees
- ▶ No Copyright constraints
- ▶ Unlimited and free Open Access for all readers
- ▶ Fair and constructive peer review provided by experts in the field
- ▶ Fast online publication of articles

We are looking forward to your submission. If you have any question, please contact us at taa.editorial@degruyter.com
