SERIES

INTERDISCIPLINARY GERMAN CULTURAL STUDIES

The series publishes monographs and edited volumes that showcase significant scholarly work at the various intersections that currently motivate interdisciplinary inquiry in German cultural studies. Topics span German-speaking lands and cultures from the 18th to the 21st century, with a special focus on demonstrating how various disciplines and new theoretical and methodological paradigms work across disciplinary boundaries to create knowledge and add to critical understanding in German studies. The series editor is a renowned professor of German studies in the United States who penned one of the foundational texts for understanding what interdisciplinary German cultural studies can be. All works are peer-reviewed and in English.
