DATABASE
TREASURY OF LINGUISTIC MAPS
ONLINE
THE ONE-STOP-SHOP FOR LINGUISTIC MAPS

- Compilation of high-resolution linguistic maps
- Searchable in one place and in a new, improved format
- Selected from various atlases and other publications that have been published over the years by De Gruyter Mouton and other De Gruyter imprints
- Many of these maps have not been digitally available before, and some are difficult to find even in printed form.
THE ONE-STOP-SHOP FOR LINGUISTIC MAPS

- Thanks to the detailed search functionalities, this database is a unique and indispensable resource for visualized linguistic information and thus relevant to many areas of Linguistics.
- Due to its comprehensiveness, accessibility, and searchability, the database will reveal new interconnections and spawn further research.
COMPREHENSIVE CONTENT

- Release version with **2,000 maps**
- **Two updates** a year with about **1,200 maps** added each year
- The updates will feature both rediscoveries from De Gruyter’s archives and material from new publications
- Planned total/final amount: **8,000 maps**
KEY FEATURES

- Enriched with **detailed metadata** allowing **specific searches** (category/subdiscipline, language(s) covered, location/area, year/century, description/keywords, map author, year of publication etc.)
  - Users can **quickly find map material specifically relevant** for their individual interests
- In addition: Easy and fast access via geographic **browse tree** (Continent, Country, State)
KEY FEATURES

- Maps in English and German, **all metadata in English** for comprehensive searches
- Map interface allows **zooming, printing, and PDF export**
- Non-restrictive DRM allows for an unlimited number of simultaneous users per campus or institutions
