Open Psychology: Article Processing Charges

In order to sustain the production of our fully-refereed open access journal, each article accepted for publication in [Open Psychology](#) is subject to an Article Processing Charge. The standard APC amounts to €1000 (further fee reductions are available – please see below).

This fee is used to cover the costs of the professional typesetting and copyediting, as well as online hosting, long-term preservation, distribution to libraries and content aggregators worldwide, and extensive promotion to potential readers.

All Authors are encouraged to apply for a **waiver or a discount** due to the Journal's extensive waiver and discount policy. All inquiries concerning Article Processing Charges should be addressed **before or immediately after submission of a paper** to the Managing Editor, Mr. Konrad Sarzyński, at the email address konrad.sarzyński@degruyter.com.

Information regarding payment of these charges will be provided following acceptance for publication. There are no submission charges – **Article Processing Charges apply after the acceptance of a manuscript**.

Editors and reviewers are not involved in the author payment process and do not discuss charges with authors. **The ability to pay does not influence whether or not a manuscript is accepted for publication.**

Discounts and Waiver Policy

In 2020, the first year after APC introduction, we offer by default discounts to all authors. **For all papers submitted until June 30, 2020 we offer a discount of 50%** (APC 500 EUR) and for those **submitted until December 30, 2020 discount of 25%** (APC 750 EUR). If two or more discounts are applicable, the highest one will be applied.

If the submitting author is affiliated with an organization that is listed as an [Institutional Member](#) or which entered an agreement with De Gruyter, the author may be eligible for a reduced expense.

We are also open to cooperation with organizations on a journal level. Such agreements mean that authors are eligible for reduced fees only in Open Psychology. Please contact the editorial office if you are affiliated with an organization listed below:

1. Ulm University, Germany

Moreover, the authors who work for institutions in developing countries (countries classified by the World Bank as low-income and lower-middle-income economies) may apply for a waiver. We offer additional discounts listed on [this page](#).

Authors who do not fulfill these criteria but have no funding for the submitted research can also request a waiver or a discount during the submission process.

Funding Opportunities

Authors who are looking for funds to support the payment of Article Processing Charges have a number of options to consider. For details, visit [our website](#).
