

A SELECTED BIBLIOGRAPHY OF SECONDARY SOURCES

This bibliography lists the books I have used most, not all the books I have read or referenced in the notes. In particular, it omits almost all non-Canadian and standard works. For this new edition, it does contain recently published titles, some of whose judgments I have not been able to incorporate into the text because of the exigencies of modern publishing. What I can say is that had I been able to do so, all these works would have been used in shaping *Canada's Army*.
